UNPLND Delight System

Version 1.0

Priority: HIGH

Status: MVP

Purpose

Great products solve problems.

Exceptional products create emotions.

The Delight System defines every tiny moment that makes UNPLND feel alive.

These moments are never required.

But together they create love for the product.

Philosophy

Users should smile.

Often.

Unexpectedly.

Without the app ever becoming childish.

Delight should feel mature.

Premium.

Human.

Never gimmicky.

Daily Greetings

Greeting changes every day.

Examples

Ready for another adventure?

Let's make today memorable.

A beautiful evening starts with one decision.

Your next favorite memory might happen tonight.

Never repeat greetings too frequently.

Time-Based Greetings

Morning

Good morning.

Coffee first?

Afternoon

Any plans later?

Evening

Ready for tonight?

Late Night

Still looking for one last adventure?

Weather Messages

Sunny

Perfect weather for something unforgettable.

Rain

Rainy evenings can be magical too.

Snow

Everything looks better with fresh snow.

Wind

Maybe today is a cozy café kind of day.

Always positive.

Never complain about the weather.

Seasonal Moments

Spring

Flowers.

Fresh colors.

Subtle blossoms.

Summer

Golden gradients.

Long evening messaging.

Sunset highlights.

Autumn

Warm oranges.

Leaves.

Coffee recommendations.

Winter

Soft lights.

Warm drinks.

Holiday collections.

Themes remain subtle.

Never redesign the app completely.

Birthday

On the user's birthday:

Small celebration.

Warm animation.

Special greeting.

Optional birthday plan collection.

No loud confetti.

Anniversary

Examples

One year with UNPLND.

100 evenings planned.

50 albums created.

Celebrate naturally.

Never force sharing.

Firsts

Celebrate

First evening.

First album.

First hidden gem.

First city.

First road trip.

These moments matter.

Delight Checklist

✓ Unexpected smiles.

✓ Calm.

✓ Warm.

✓ Premium.

✓ Human.

✓ Never distracting.

DO NOT

Do NOT use confetti.

Do NOT use flashing animations.

Do NOT spam celebrations.

Do NOT imitate mobile games.

Do NOT use fake urgency.

Delight should always feel earned.

Success Criteria

Users occasionally say:

"I don't know why...

but I love opening this app."

That is success.

Golden Rule

Delight is invisible.

People won't remember the animation.

They'll remember how the app made them feel.

Claude Instructions

Whenever you implement a feature,

ask yourself:

Where is the tiny moment of joy?

If none exists,

consider adding one—

as long as it remains subtle, useful, and aligned with the premium brand.

Never sacrifice simplicity for delight.

Delight should support the experience,

not replace it.
