27_SOCIAL_VISION.md

Social Experience Vision

Version 1.0

Priority: Future (V2+)

Status: Roadmap

Purpose

Social features should strengthen real-world relationships.

Never replace them.

UNPLND exists to help people spend time together.

Not to spend more time inside the app.

Philosophy

Social is an enhancement.

Not the product.

Planning together.

Experiencing together.

Remembering together.

That is the goal.

Social Principles

Real-world first.

Screen time second.

Privacy first.

Quality over quantity.

Friends over followers.

Experiences over content.

Friends

Users can add friends.

Methods

Username

QR Code

Phone Contacts (optional)

Invite Link

Never require public profiles.

Friend Profiles

Show

Adventure Map

Recent Albums (if shared)

Favorite Mood

Favorite Activities

Cities Explored

Privacy controls for every section.

Collaborative Planning

Multiple users contribute.

One planner.

Shared preferences.

Consensus generation.

Everyone receives the same route.

Group Planning

Host creates evening.

Invites friends.

Members vote on

Mood

Budget

Time

Transport

The AI balances everyone's choices.

Shared Albums

One album.

Multiple contributors.

Everyone uploads photos.

Shared timeline.

Comments (optional).

Private by default.

Chat

Purpose

Coordinate an evening.

Not replace messaging apps.

Supports

Text

Photos

Location sharing (temporary)

Route discussion

No endless conversations.

No channels.

No public communities.

Temporary Live Location

Optional.

Only during active evenings.

Automatically ends when the evening ends.

No continuous tracking.

Invitations

Invite friends into an evening.

Accept

Decline

Maybe

Calendar integration (future).

Reactions

React to shared memories.

Simple.

❤️

😂

🔥

😍

No public like counts.

No popularity metrics.

Adventure Feed

Private.

Friends only.

Chronological.

Albums

Completed evenings

Recommendations

No algorithm.

No endless feed.

Memories Together

Albums show

Who was there.

Group photo.

Shared notes.

Favorite moment.

Each person can add their perspective.

Planning Together

Real-time updates.

Host changes

↓

Everyone sees update.

Votes update instantly.

Simple collaboration.

Friend Suggestions

Based on

Contacts (optional)

Invitations

Mutual friends (future)

Never spam suggestions.

Adventure Recap

Shared yearly recap.

Examples

18 evenings together.

42 new places.

312 km explored.

Most visited city.

Favorite restaurant.

Generated automatically.

Privacy

Everything private by default.

Users explicitly choose

Friends

Shared

Public

Location sharing always expires automatically.

Safety

Block users.

Report users.

Leave shared album.

Remove yourself from shared memories.

Delete your own content.

Always user-controlled.

Notifications

Friend accepted.

Evening invitation.

Album shared.

Photo added.

Planning started.

No engagement bait.

Monetization

Social features remain free.

Premium enhances planning,

not friendships.

Never paywall collaboration.

Vacation Mode

Festival Planning

Road Trip Collaboration

Delight Checklist

✓ Sharing feels effortless.

✓ Privacy feels trustworthy.

✓ Collaboration feels simple.

✓ Memories become richer together.

✓ Friends meet more often.

DO NOT

Do NOT create follower counts.

Do NOT create influencers.

Do NOT create endless feeds.

Do NOT reward popularity.

Do NOT optimize for screen time.

Do NOT imitate Instagram.

Do NOT imitate Snapchat.

Success Criteria

Success is measured by:

More evenings together.

More memories together.

More invitations accepted.

More shared experiences.

Not by:

Daily screen time.

Likes.

Followers.

Views.

Golden Rule

Social should bring people together.

Not keep them apart.

If users spend less time chatting because they are already meeting,

UNPLND is succeeding.

Claude Instructions

Every social feature must encourage users to leave their phones behind.

If a feature increases screen time without improving real-life experiences,

it does not belong in UNPLND.

Protect the mission above all else.
