UNPLND Design System

Version 1.0

Priority: CRITICAL

Status: Foundation

Purpose

The Design System defines the visual language of UNPLND.

Every screen.

Every button.

Every card.

Every animation.

Every future feature must follow these rules.

Consistency creates trust.

Brand Personality

UNPLND should feel

Warm

Calm

Modern

Premium

Friendly

Minimal

Optimistic

Never corporate.

Never playful.

Never childish.

Design Philosophy

The interface should disappear.

Users should focus on planning experiences,

not learning the app.

Every interaction should feel obvious.

Inspiration

Apple

Airbnb

Notion

Spotify (simplicity)

Arc Browser

Linear

Avoid copying.

Take inspiration only.

Visual Identity

Rounded.

Soft.

Comfortable.

Elegant.

Lots of breathing room.

Natural.

Human.

Corner Radius

Small Elements

12 px

Cards

20 px

Bottom Sheets

28 px

Modals

32 px

Profile Images

Circular

Consistency is mandatory.

Spacing System

Base Unit

8 px

Scale

4

8

12

16

24

32

48

64

Never use arbitrary spacing.

Grid

Mobile

4-column logical layout

Content width

Comfortable margins

Large whitespace

The UI should breathe.

Colors

Primary

Warm Terracotta

Secondary

Soft Cream

Accent

Golden Sunset

Background

Warm Off-White

Surface

Pure White

Text Primary

Near Black

Text Secondary

Soft Gray

Success

Natural Green

Warning

Warm Amber

Error

Muted Red

Avoid saturated colors.

Typography

Primary Font

SF Pro (iOS)

Inter (Android/Web fallback)

Headlines

Bold

Body

Regular

Captions

Medium

Readable first.

Decorative never.

Font Scale

Hero

40

H1

32

H2

28

H3

24

Body

17

Caption

14

Micro

12

Never go below 12.

Buttons

Primary

Filled

Rounded

Secondary

Outlined

Tertiary

Text only

One primary button per screen.

Always.

Cards

Large.

Rounded.

Minimal shadows.

Soft borders.

High contrast.

Cards should feel touchable.

Icons

Rounded.

Simple.

Consistent weight.

No decorative icons.

Prefer clarity over uniqueness.

Illustrations

Soft.

Warm.

Minimal.

Human.

Never use generic stock illustrations.

Photography

Golden Hour

Warm lighting

Real people

Natural smiles

Authentic moments

Never overly staged.

Shadows

Minimal.

Soft.

Almost invisible.

Depth without heaviness.

Motion

Fast.

Natural.

Elegant.

Never flashy.

Every animation has a purpose.

Animation Duration

Quick

150 ms

Normal

250 ms

Complex

400 ms

Never exceed 500 ms for standard UI.

Haptics

Selection

Light

Success

Medium

Warning

Firm

Never vibrate constantly.

Loading States

Skeletons.

Soft shimmer.

Never empty white screens.

Never blocking spinners when avoidable.

Empty States

Always optimistic.

Illustration.

Headline.

Helpful CTA.

Never punish the user.

Bottom Sheets

Rounded.

Large handle.

Comfortable spacing.

Native feeling.

Navigation

Bottom Navigation

Five tabs maximum.

Clear labels.

Persistent.

Forms

One question at a time.

Large touch targets.

Live validation.

Never overwhelm.

Accessibility

AA contrast minimum.

Large text support.

VoiceOver.

Reduce Motion.

Touch targets

Minimum 44x44.

Dark Mode

Not an inverted light theme.

Custom palette.

Warm dark grays.

Muted colors.

Maintain emotional warmth.

Delight Checklist

✓ Calm.

✓ Elegant.

✓ Human.

✓ Consistent.

✓ Comfortable.

✓ Premium.

DO NOT

Do NOT use neon colors.

Do NOT use glassmorphism everywhere.

Do NOT use excessive gradients.

Do NOT overuse shadows.

Do NOT overcrowd screens.

Do NOT chase design trends.

Timeless beats trendy.

Golden Rule

Every new screen should feel like it has always belonged to UNPLND.

Users should instantly recognize the product,

even without seeing the logo.

Claude Instructions

Before implementing any screen ask:

Does this look like UNPLND?

If the answer is uncertain,

redesign it.

Protect consistency above creativity.

Consistency builds premium products.
