UNPLND User Personas

Version 1.0

Introduction

UNPLND is built for real people.

Not demographics.

Not statistics.

Every product decision should optimize for at least one of these personas.

If a feature doesn't benefit any persona...

it probably shouldn't exist.

Persona 01

The Weekend Friend Group

Age

18–28

Description

A group of friends who meet every Friday or Saturday.

Every week starts with the same conversation.

"What are we doing?"

Nobody knows.

Everyone suggests something.

Nobody decides.

Eventually they end up at the same places.

Pain Points

Decision fatigue.

Too many opinions.

No ideas.

Always doing the same activities.

Hours wasted planning.

Goals

Try new places.

Spend less time deciding.

Have memorable evenings.

Stay within budget.

Favorite Features

AI Planner

Group Planning

Weather Suggestions

Night Route

Albums

Sharing

Success

UNPLND creates an entire evening in under one minute.

Persona 02

The Couple

Age

18–35

Description

Partners looking for spontaneous date ideas.

Sometimes they have no inspiration.

Sometimes they don't want another restaurant.

Pain Points

Every date feels similar.

Planning is exhausting.

One partner always decides.

Goals

Unique dates.

Romantic evenings.

Discover hidden places.

Create memories together.

Favorite Features

Date Mode

Cozy Plans

Memory Albums

Photo Timeline

Favorites

Success

Every date feels different.

Persona 03

The Traveler

Age

18–40

Description

Someone visiting a new city.

They don't know where locals actually go.

Pain Points

Tourist traps.

Too many options.

Poor recommendations.

Planning takes forever.

Goals

Experience the city like a local.

Discover hidden gems.

Spend one amazing day.

Favorite Features

Explore

AI Routes

Maps

Walking Plans

Hidden Places

Success

The traveler feels like a local.

Persona 04

The Last-Minute Planner

Age

16–35

Description

It is already evening.

No plans.

No ideas.

Needs something immediately.

Pain Points

Everything requires planning.

Friends don't know either.

Time is running out.

Goals

One-tap planning.

No research.

Fast decisions.

Favorite Features

Quick Plan

One Tap Generate

Nearby Activities

Success

Planning takes less than 30 seconds.

Persona 05

The Memory Collector

Age

18–35

Description

Loves taking photos.

Keeps memories.

Creates Instagram dumps.

Posts recaps.

Pain Points

Photos disappear in camera roll.

Trips become forgotten.

No timeline.

Goals

Beautiful albums.

Automatic memories.

Nostalgic feeling.

Favorite Features

Memory Albums

Retro Design

Photo Timeline

Map Memories

Success

Every evening becomes a memory worth revisiting.

Persona 06

The Budget Explorer

Age

16–30

Description

Student.

Young professional.

Limited budget.

Still wants great experiences.

Pain Points

Most suggestions are expensive.

Hard to filter by price.

Goals

Amazing evenings under €20.

Under €50.

Free activities.

Favorite Features

Budget Slider

Free Activities

Student-Friendly Plans

Success

Great evenings without overspending.

Universal User Needs

Every user wants:

Less planning.

More living.

Simple decisions.

Reliable recommendations.

Memorable experiences.

Trust.

Beautiful design.

Speed.

Users We Are NOT Building For

Professional travel agencies.

Business meetings.

Corporate event planners.

Conference scheduling.

Complex itinerary management.

Calendar power users.

Enterprise software.

UNPLND is a consumer lifestyle product.

User Promise

Regardless of who opens UNPLND...

They should immediately feel:

"This app understands me."

Claude Instructions

Every new feature must clearly identify:

Which persona benefits?

Which problem is solved?

How does this improve their experience?

If no persona benefits,

do not implement the feature.

Never build features for imaginary users.

Build for these personas.
